

8IP Australian Small Companies Fund

The 8IP Australian Small Companies Fund ("Fund") provides diversified exposure to Australian small companies. The Fund is managed by Eight Investment Partners Pty Limited ("8IP").

Review & Outlook

Pleasingly the Fund outperformed the Index for the month (Fund up +3.02% in gross terms, +0.27% ahead of the Index). The Fund has now outperformed the Index in gross terms over the last five years by +5.52% per annum.

The three top performers for April were Speedcast International, Cooper Energy and Cleanaway Waste Management. Global satellite network operator, Speedcast, rose on debt restructuring and the appointment of a new CFO. Cooper Energy more than offset last month's price fall as progress continues on their landmark Gippsland Sole project. Towards the end of the month Cleanaway received ACCC approval for its proposed takeover of Tox Free Solutions.

Detractors for the month included Experience Co. and Citadel Group. Adventure tourism operator Experience Co. announced a downgrade to expected FY18 earnings caused by persistent poor weather in North Queensland. These impacts are believed to be "one-off" in nature. Enterprise software provider, Citadel, fell during the month, although the stock has risen by over 25% since we purchased our first tranche in the third quarter of 2015. During the month we received an update on New Zealand re-insurer CBL Insurance (which represents 1.4% of the portfolio at current valuation) which went into voluntary liquidation in February will have a liquidation hearing before the NZ High Court in June that will hopefully shed some more light on what potential value remains for shareholders.

Past performance is not an indicator of future performance. All returns are shown to two decimal places. Returns for periods of more than one year are annualised. Total returns include realised and unrealised gains and losses plus income and are time-weighted rates of return that adjust for external cash flows. Valuations are computed and performance reported in Australian dollars. Gross-of-fees performance returns are presented before management and performance fees but after all trading expenses.
