

8iP Small Companies Fund

We focus on growing your wealth through core and high conviction small companies

FUND SNAPSHOT

The 8iP Australian Small Companies Fund ("Fund") provides diversified exposure to Australian small companies.

The Fund aims to deliver outperformance above the S&P/ASX Small Ordinaries Accumulation Index with a diversified portfolio of equities across a range of industry sectors within the Australian small companies segment.

The Fund is rated Recommended by Lonsec Research - please contact the 8iP team for more information.

OUTLOOK

The Fund rose by 0.81% before fees in October, outperforming its benchmark by 1.31%. Cumulative calendar year-to-date appreciation of the fund reached 40.78%, 20.94% ahead of its benchmark index.

Splitit (SPT, +64.71%) re-rated strongly following 3Q results which reported all key metrics doubling (or better) over the previous 12 months. The team continues to educate the market on the differences between its model and the broader Buy-Now-Pay-Later sector. In theory, SPT's model is superior – more scalable, more focused, less capital intensive – and the strategy is tight and well run. Management has been refreshed and the new CEO has impressive and relevant experience. We remain supporters.

As we do of Whispr Limited (WSP, +18.01%). The company turned in a good quarterly result and in consequence now trades comfortably ahead of its IPO price for the first time since listing. Whispr also announced a global tie up with Amazon Web Services during the quarter.

City Chic Collective Ltd (CCX, +11.65%) finalised the acquisition of the e-commerce assets of Avenue Stores LLC, a US-based specialty retailer "targeting value-conscious women aged 25-55". We expect the acquisition, which was funded from existing resources, to be a material positive, and the stock moved higher.

Recent news-flow on Trade Wars, Brexit and the US economy has been positive. While President Trump has exaggerated progress in talks with China before, we believe he is incentivised to sign something in the coming period. If so, the potential for a "relief" rally is high. We think the odds have risen and we have made marginal adjustments, but we retain the portfolio's overall structure.

Past performance is not an indicator of future performance. All returns are shown to two decimal places. Returns for periods of more than one year are annualised. Total returns include realised and unrealised gains and losses plus income and are time-weighted rates of return that adjust for external cash flows. Valuations are computed and performance reported in Australian dollars. Gross-of-fees performance returns are presented before management and performance fees but after all trading expenses. Net-of-fees performance returns are presented after management and performance fees.

SECTOR ALLOCATION

ABOUT 8IP

8IP employs a unique stock identification philosophy. We aim to identify and invest in three types of companies as follows:

- “Stars” - Companies facing large markets and possessing a market-leading multi-year competitive advantage;
- “Turnarounds” - Fundamentally good companies where something has gone wrong, but a significant catalyst for change is in place.
- “Under-researched” - Companies whose inherent value the market has as yet
